

Feeney's Wholesale Nursery COVID-19 update

To Our Valued Customers

During these unusual and difficult times, Feeney's Wholesale Nursery remains committed to keeping our workplace safe for our employees, customers, and community. We are open for business, and based on the Guidance from the Center for Disease Control (CDC) and the Order of the Secretary of the Pennsylvania Department of Health, we have implemented a number of changes to our operating procedures and policies. A list of these changes can be found below. We appreciate everyone's business as we all work our way through the challenges presented by the COVID-19 virus. We will get through this together.

Changes to our operating procedures and policies:

- Customers and employees are required to wear FACE COVERINGS while on premises unless suffering from a medical condition that inhibits such usage.
- Wash your hands at our newly installed sink and paper towel holder.
- Stay 6' away from our employees and others.
- Customers are not permitted inside our office. Please wait in front of the picnic table on the porch to sign your invoice(s) and credit card receipt(s). Place used pens into designated basket.
- If possible, please fax/email/text your order so that we may pull it in advance. Please email the following: devon@feeneyswholesale.com
julie@feeneyswholesale.com
linda@feeneyswholesale.com
- Stay in your vehicle while getting loaded, point to what you would like. You may also load yourself and then tell our employees what you loaded into your vehicle.
- Please do not bring your whole crew and customers to our yard.
- If you need a plant identified, please text 215-852-9478 or email Linda photos. Please include your name, your company, and various angles of the plant (ex: one far away and one close-up).

If you or your employees are uncomfortable with any of these changes, please call the office at 215-598-1100 to make arrangements so that your team may still get plant material!
